The retreat is a follow-up of the talk by Kim-Diêu on June 19, 2022, on

Spiritual Powers Latent in Humankind:

What Spiritual Powers are there?

How can they be activated? given at the International

Symposium on The Science of Powers

Latent in Humankind.

During the retreat, a series of important questions will be explored to set the mind in motion towards spiritual growth:

What is a human being?

What is evolution in the theosophical perspective?

What is the Universe? (Its manifested 'side', the 'other side', and its real structure).

What is 'matter' and what is 'space-time'?

What is the relationship between the Universe and a human being?

What are the powers latent in a human being?

In addition to exploring these questions, there will be sessions of seated and walking meditation.
