

I International Gathering of Young Theosophists

5. – 10.2.2016, Brazil

The search for Truth and Theosophy Today

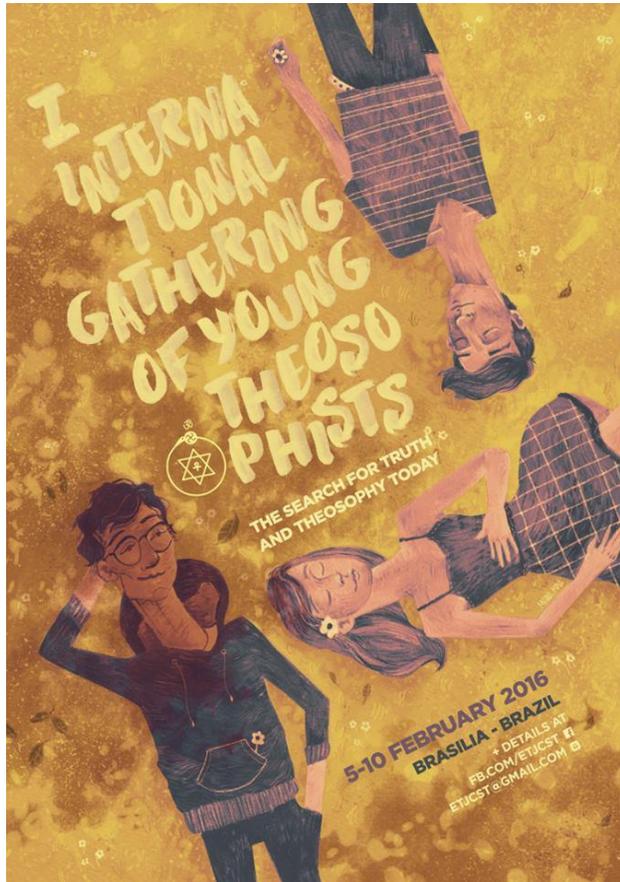

After organizing three successful and inspiring national gatherings for young people in Brazil, the Brazilian young theosophists decided to take one step further and host the I International Gathering of Young Theosophists.

An international gathering of young theosophists represents the creation of friendship bonds that will help the growth of the Theosophical Society, not only for the young people of today but for future generations as well. However, many young people cannot afford to travel the world for that, so we are encouraging members and especially national sections to financially support at least one young theosophist from its country to attend to this event, directly supporting a young theosophist known in the section.

Alternatively, we will soon have a crowdfunding system, in which any person can make a donation to the event. Part of the donations will be allocated to support young theosophists with their travel costs. If interested, please email us at etjcst@gmail.com.

We hope to see young theosophists coming from all parts of the world. Please help us to unite new generations for this common goal.

*With brotherly love,
Organizing Committee of the International Gathering of Young Theosophists*

Basic information

- The event will occur from the 5th to the 10th of February 2016, in Brasilia (Brazil),

- The event is organized by a group of young theosophists from Brazil, with members from the youth groups Lotus (from Joao Pessoa), Aion (from Brasilia) and Atma (from Campina Grande), as well as other young theosophists, with the support of the Brazilian Section. To contact the organizing committee please email etjcst@gmail.com and we also recommended that all interested like our Facebook page www.facebook.com/etjcst from where we will publish announcements in Portuguese with translations in English.

- The venue will be the Theosophical Institute of Brasilia, which is the biggest and

most important theosophical centre of Brazil. You can have a look in the pictures of the venue in [the website](#).
