ECHOES FROM THE SILENCE: MASTERING THE MIND, OPENING THE HEART

With

**Charlton Jules

*A Meditative Journey
from the Personal Self to
Universal Service.*

In a world of constant noise, the ability to access inner silence is not just a luxury—it is a necessity for the soul.

This immersive 8-session program invites students of the School of Wisdom to move beyond intellectual study and into the direct experience of the Ageless Wisdom. Guided by the classic insights of H.P. Blavatsky's *The Voice of the Silence* and *The Golden Stairs*, we will explore the "architecture of the soul."

Together, we will traverse the path from the personality to the Higher Self. We will learn to stabilize the emotions, clarify the mind ("Slay the Slayer"), and construct the bridge of consciousness between our lower and higher nature.

Whether you are a seasoned Theosophist or a seeker beginning your path, join us to discover how to transform knowledge into wisdom, and inner silence into universal service.
