

THE SCHOOL OF THE WISDOM

The Theosophical Society
Adyar, Chennai 600020, INDIA

November 2016 – February 2017

The School of the Wisdom aims at bringing each student to survey life 'from the centre', which is intuitive awareness. An intense sense of Life must always accompany every true student. There can be no Wisdom without an ever increasing sense of Wonder.

Essential in the progress towards Wisdom is a growing intimacy with all aspects of Nature. The message which each tree, flower, animal, meadow, sea, sky, and cloud has, must be listened to and understood.

The Neuroscience of Meditation

Directors: Dr Bhaskar Vyas and Dr Rajni Vyas

The transforming power of yoga and meditation and their application in life is going to be explored with the help of Vedic texts, exposure to different meditative practices, and the latest medical imaging. This study will provide objective evidence for the neural and biological basis for meditation. It will establish meditation as the ground of creativity, happiness, and health, while the understanding of hypnosis will remove any bias against it.

Increased exploration of meditation as a scientific physiological process will provide an insight into the biological basis for consciousness. Such an understanding will facilitate the application of meditation and hypnotherapy for treating various diseases, including psychiatric disorders.

Exposure will be provided to various meditative practices such as Mindfulness Meditation, Vipassana, Transcendental Meditation and other practices derived from Kashmir Shaivism. The practice of Yoga Nidra may be taught.

Dr Bhaskar Vyas and Dr Rajni Vyas, are medical specialists in the fields of plastic surgery and obstetrics and gynecology respectively. A versatile scientific training has enabled them to advanced understanding of Patanjali's Raj Yoga as well as Vajrayana practice. They have published dozens of papers and made presentations in the subjects of their primary specialization as well as on hypnotherapy and meditation.

Their study extends from J.Krishnamurty's writings, Zen practices, Kashmir Shaivism and transcultural varieties of religious experiences. As medical doctors they are involved in the spiritual aspects of healing arts and teach these as a scientific tool in forms of mediation.

5 to 16 December 2016

Theosophy and the Upanishads

Director: Dr Chittaranjan Satapathy

The very essence of Theosophy (Divine Wisdom or Brahavidya), in so far as it is possible to be expressed by words, can be found in the Upanishads. For example, identity of the nature of the universal Self and the particular Self, a central concept in Theosophy, is beautifully expressed in the Upanishadic Mahavakya (Great Saying) 'Tat Twam Asi, That thou art'.

In this session of the School of the Wisdom, the participants will look at the lofty philosophical thoughts contained in the wondrous teachings of Theosophy and the Upanishads, and examine how the same can be applied in daily life.
